PROFILE

Computer Science undergraduate at the University of Lahore with practical experience in software development, machine learning, data analysis, web development, and game development. Proficient in Python, C++, SQL, React.js and modern data analysis libraries including Pandas and NumPy. Experienced through internships in Unity game development and machine learning research.

EDUCATION

2023 - June 2027
UNIVERSITY OF LAHORE

- Bachelors in Computer Science

WORK EXPERIENCE

July 2026 - Present
Shaukat Khanum Research Department
Machine Learning Intern

- Perform data preprocessing, cleaning, and exploratory data analysis (EDA) using Python, Pandas, and NumPy.
- Support the development, training, and evaluation of machine learning models.
- Collaborate with researchers to analyze datasets and generate actionable insights.

July 2025 - Sept 2025
Draco Arts
Game Development Intern

- Developed gameplay features using Unity and C#.
- Collaborated with developers to implement game mechanics and improve user experience. Debugged and optimized game functionality to enhance performance.
- Participated throughout the game development lifecycle.

Ambassador | October 2025 – March 2026
Volunteer | March 2026 – Present
Hope Society Pakistan

- Coordinated volunteers and supported event planning and execution.
- Promoted education, social responsibility, and community engagement.
- Organized community welfare initiatives and awareness campaigns.

SKILLS

- Python
- SQL
- C# and C++
- React.js
- HTML
- JavaScript
- Analytical Thinking
- Team Collaboration
- Communication
- Leadership Skills

PROJECTS

- NGO Smart Aid (HTML5, CSS3)
- NGO Smart Aid (React.js, JavaScript)
- Hotel Management System (DSA)
- Cafeteria Management System (OOP)
- Triangle Analyzer and Sorting (PF)
- Departmental Store Database (SQL)
- EchoSync (Flutter, Dart)

LANGUAGES

- English
- Urdu
- Punjabi
